Crēdo™

XTREME

PALLET BULK SHIPPER

INTRODUCING OUR HIGH PERFORMANCE, EXTREMELY DURABLE PASSIVE TEMPERATURE-CONTROLLED FULL AND HALF PALLET SHIPPING CONTAINER.

This high performance, extremely durable and reusable passive temperature-controlled pallet shipper is offered in two sizes and is ideal for consolidating large domestic and international cargo shipments. Peli BioThermal's Crēdo™ patented technology provides a revolutionary cost effective temperature-controlled pallet shipper that ensures secure transport of high value pharmaceutical and biotech products – qualified to maintain the required temperature range for 96 - 144 hours. Easy removal and installation of the TIC™ (PCM) system for conditioning provides a significant return on investment with less labor costs, greater volumetric payload size, and reduced risk of product compromise.

Product Design Features

- Crēdo™ modular design, full stack pallet system easily converts to half pallet for maximum flexibility of payload volume and shipping cost efficiency
- Convenience of four-way forklift accessibility provides convenience and ease of loading in warehouse storage logistics. Attached tie-down strap system for quick loading and unloading
- Extended passive thermal shipping duration capabilities without messy, bulky gel/ice packs or dry ice
- No electricity or expensive refrigerated cargo shipping required, allowing for more transportation choices and an alleviated payload excursion risk due to power failure
- Multiple temperature ranges (frozen, refrigerated, and controlled room temp) with our patented interchangeable, easy packout TIC™ system with PCM (phase change material)
